Game synopsis: You awake with no memory of who you are, where you are, or how you got there. As you try to piece together the events that have led to this waking moment, you are attacked by monsters and everyone seems to be trying to kill you. Read on to learn about the Five Great Powers, the different races and their history, and the world of TAS in Crusaders of the Lost Idols! Realm Select: To start the game, you have to select a Realm. You can choose from five realms: the Barony of the City, the Forest of the Forestlanders, the Plains of the Dwarves, the Jungle of the Jegudians, and the Land of the Nomads. The Realm: The Barony of the City: The Barony of the City is a peaceful land, where a high-ranking merchant leads a team of adventurers to slay monsters and rescue maidens. It is a peaceful life of adventure and fortune, and the place where you were born! Forest of the Forestlanders: The Forest of the Forestlanders is a green land, where longhorn beasts run amok and roam free. The people are the descendants of the elves, and their life is one of peace and prosperity. Plains of the Dwarves: The Plains of the Dwarves is a wasteland of war and strife. The constant war between the peoples is exhausting and the land is in disrepair, ravished by the various warring factions. The people are relentless and the land is scarred by blood. Jungle of the Jegudians:

---

The Jungle of the Jegudians is a well-trodden land of lush jungles and dense thickets. The one positive trait the people of this realm have is their creativity, with anything and everything in nature being possible. However, they lack the spirit to stand up to the horrors of this land. Land of the Nomads: The Land of the Nomads is a primitive land, where you are required to build the vast nomadic tribes and their quest for survival. The Nomads are skilled warriors, skilled trackers and can find their way through the most difficult of trails. But, their hearts are weak and their spirits are worn. You are the Crusaders of the Lost Idols! Your Story: You awaken with no memory of who you are, where c9d1549cdd

- build your settlement - manage workers and resources - survive night attacks of dangerous monsters - craft and upgrade buildings - gather resources to survive winter - manage power supply - manage and explore an ancient's settlement What will I find? A lot of things you just expect from a game about building a life in a snowy wilderness during winter. Will you manage your power supply well or need to repair the already built damage? Will you manage to keep your settlement warm and your citizens alive? Will you manage to craft your first warm fire? Will you manage to gather enough wood to build a fire? Will you discover new resources on your journey? Will you find graves of your ancestors? Can you survive monster attacks in your heavily guarded settlement? BUILD YOUR OWN SETTLEMENT Start off with a small settlement with three houses on a snow covered hill. Bigger settlements will offer more houses, and special ones will have the opportunity to craft some unusual things. A settlement with a minimap will be much more easy to manage and you can trade with your neighboring settlements. SLEEPING TENTS, HOUSES AND SMALL BASES Your settlement might be surrounded by unkind guests: snow and ice zombies. To keep them from attacking you, you will need to put up sleeping tents and store food. Buildings that are used for defense are a better choice than wooden huts. For a small settlement, just a few sleeping tents will be enough to keep you defended. SPAWN YOUR OWN NATURE As winter comes upon you, the snow will cover your settlement. Some snow might be undisturbed, but bigger chunks will fall. Your settlement should be built in a hill to protect it against the snow. To protect your buildings from snow, you will need to construct snow barriers around them and repair the damage when it occurs. Snowmobiles will be very useful to you. PUT THE RIGHT BOOMER TO WORK Different professions need different resources, but you might only have one available. You will need to direct your efforts to build a good economy to survive winter. Buildings that are used for defense are a better choice than wooden huts. FORGE YOUR FIRST FIRE Your first fire will not be as cozy as a campsite fire. You will need a lot of firewood to keep you company during winter. The starter buildings for the crafting of fire and buildings that burn wood and coal are useful to start your collection. MANAGE MONSTERS Sometimes you will

### **What's new:**

**: The Incredible Hulk vs. Contest of Champions During the '80s there was a growing demand for a Marvel Superhero tournament, and with the release of Contest of Champions, it was crafted for it. The tournament alternated the Hulk with the Fantastic Four, Spider-Man, and Thor. It was a great deal of fun, and for the most part well thought out. Throw in a variation of Marvel vs. Capcom on the side, and it gives a lot of action potential. Fast forward 14 years, and Marvel is releasing a game called Infinity Gauntlet. This game has a variation of the**

tournament, as you see in these trailers. Now, with the addition of licenses like this there are three paths forward. You could stick with what is and make you playable character as one of the four Incredibles, or you could look towards what the cover is advertising and go with the Hulk. This becomes the issue. The problem is, as you can see in the image here, the cover is advertising a game that doesn't yet exist. The game is currently titled Bounty Brawl, but the plot of the game is a HULK vs CONTEST OF CHAMPIONS 2. Two different games, merged into one. The only problem is that I don't know why someone would imagine that would work. It's hard enough seeing Hulk vs. X from a simple Marvel vs. Capcom crossover, to now adding a tournament to it, that has no data, while the games themselves are easily likable and contain some fantastic characters that should be further developed. Conclusion I'm not the first to speak on the issue, and I'm probably not the first to say this, but as we move forward with all of this Marvel licensing stuff it will be entertaining to see what ideas they come up with. When they have the assets available to create new games, it will be time to see what new titles they can create, and I'll be here in full support of them if they do so. I would love to see a Hulk game that is mostly a crazy adventure. Cast Hulk, Hulk, roll off a speaker, open up a portal to the nth dimension, and suddenly find yourself in battle with a bunch of other awesome heroes. All this action with a "Hulk for the win!" background music would be fantastic. Summary The Infinity Gauntlet is a different game than
