a great program and helps you to calculate ceiling height . Ceiling Height Calculator
For Windows (Windows 7, 8, Vista, XP) is a great program and helps you to calculate
ceiling height .Q: How to run java code and see output at same time? I am currently
learning about synchronization in java. I am trying to write a simple program that has
two threads, one that writes to a file, and the other reads from the file. Since the
program is writing to and reading from the same file, I want to see the
synchronization happening. My code is as follows: public static void main(String[]
args) { Runnable r = new Runnable() { @Override public void run() { synchronized
(s) {
