These resources are based on the book "Mathematical Methods in the Physical Sciences" by William Dingle. This book was originally published by Cambridge University Press, Cambridge, UK, and its publisher remains in the Cambridge University Press publishing house. Since its original publication in 1955, however, "Mathematical Methods in the Physical Sciences" has been completely rewritten to cover today's mathematical methods in the physical sciences, and in particular its second edition in 1974 is frequently cited as the "classic textbook in the field". Synchronisation issues often occur when companies try to collaborate on solutions to information security problems. As explained, most companies can not collaborate online as the use of technical infrastructure makes their solutions very vulnerable to online attacks. For example, if collaboration occurs via technical infrastructure within an organisation, then if someone corrupts it, then everyone becomes vulnerable. As such, there are a number of legal, contractual, technical and ethical reasons why companies are reluctant to collaborate online (41, 47).
