PDFActionReader For PC

"KeyMACRO" contains 24 hotkeys for the main "PDFActionReader" tool bar. There are 6 functions in "KeyMACRO". Users can assign Hotkeys to any combination of these 6 functions. Users can also define the order in which the 6 functions are displayed on the screen. For example, users can assign Hotkey 1 to function "1" and Hotkey 2 to function "2", then Hotkey 3 to function "3", and Hotkey 4 to function "4" and Hotkey 5 to function "5", etc... to name a few. Users also have the option to group these 6 functions into as many as 6 folders to make it easier to find a function they want, such as Hotkey 1 to function "1" and function "3" in the "tools" folder. Please note, the only requirement for "KeyMACRO" is to be placed on a desktop shortcut which points to "PDFActionReader" folder. How to setup: Simply drag "PDFActionReader" folder onto the desktop, then right click on it and select "Create Shortcut". In the "Create Shortcut" dialog box, select "Link to program or file" in the bottom right of the dialog box, point the shortcut to the correct "KeyMACRO" shortcut, and click ok to complete. Users can now use the shortcut to open the "PDFActionReader" tool bar with all the functions displayed on the screen. Hotkeys can be assigned directly from the "tools" folder in the "PDFActionReader" program folder. Bundled KeyMACRO Sample Files KeyMACRO Components: "KeyMACRO" sample files. All "KeyMACRO" sample files are also available for download on this page in "KeyMACRO" folder. All "KeyMACRO" files are also available for download on this page in "KeyMACRO" folder. What is a Mac Virus? A virus is a malicious program that infects computers and alters data so that it runs without permission of the user. A typical virus is written with a specific goal in mind. The most well known and studied viruses affect the operating system and cause it to crash. Other viruses infect the information being stored on a computer's hard drive.
