ENT is a sub-specialty of Otolaryngology which deals with disorders and diseases of the ear, nose, paranasal sinuses, pharynx, larynx, and neck. The aim of ENT surgery is to provide a cure for the patient. It should be noted that in most cases there is no cure for ENT diseases other than surgery. The surgical intervention is aimed at eliminating the problem or reducing the severity of the ENT pathology. Additionally ENT are diseases of the throat or nasal cavities which can be complicated due to anatomical relationships, bialveolar pathology or psychological etiologies. ENT diseases are rarely found in isolation, and usually occur in a context of systemic disease or may be a presenting sign of an underlying disease process. In recent years, a number of advances have been made in treatment of these diseases due to increased understanding of their pathology and natural history. Download e-Book : Textbook of ENT Diseases.
